SEO

PROJECTS

Echo

I crafted an elegant 'watch' website using Tailwind CSS and React JS, offering a seamless and intuitive platform for users to enjoy a curated selection of content.

YouTube Clone

I developed a YouTube-inspired website utilising React for the front-end and an API for seamless functionality, offering users a familiar video-sharing experience.

ABOUT

I'm Buwanes, and I've ventured into front-end development with a passion for video games and a desire to create my own. As a newcomer to this field, I'm taking the first steps in web development to build a solid foundation. You can check out my works in the link to my website.
